RECORD SHAFT SINKING IN THE EMPRESS MINE

Making close to six feet a day since last July 20th the Empress shaft crew finished cutting station on the five hundred and fifty foot level, and with a crosscut twenty-four feet from the shaft encountered the foot-wall vein bigger and stronger than ever. Fifteen feet of ore has been opened and a long test hole towards the hanging wall shows better than eight feet additional width of the vein. The management expects to find the ore on this level to be about twenty feet wide, while on the four hundred it measured only fourteen feet. The shaft will be carried down to the one thousand level, cutting stations at 700 feet and 850 feet on the way.

The Empress shaft crew are making record time with the sinking.

GRAY WING MINING CO STARTS SHAFT SINKING

The Gray Wing Extension Mining company is sinking a two compartment mining shaft on their property southeast of Folsom on the Broder ranch. The company has just completed a 75 foot timbered head frame.

This work was started following the drilling of eight ten inch holes into the ancient Blue Ravine channel of the American river, which revealed four to nine feet of pay gravel.

Robert L. Hathaway of North Sacramento, who built the $3,000,000 surface plant of the Empire mine at Grass Valley, and who has been building mine plant since 1894, is erecting the headframe and other surface equipment for the Gray Wing Extension.

Hathaway also built the $800,000 surface plant of the Grass Valley Consolidated, the mills and hoists of the Golden Center and Union Hill mines of Grass Valley, and between thirty and forty mills and hoists in Sierra county, including those of the Sixteen-to-One and Tightner mines at Alleghany.

In addition to the headframe, at the Grey Wing Extension, which will contain an electric ten-ton hoist and will be 48 feet wide by 65 feet long at the base and 8by 14 feet at the 75-foot top, Hathaway will build an air compressor house, office building, drying house, mill, flume, waste tracks to dumps, feeders, sheaves, Cornish pump, hoist house 20 by 36 feet, and a blacksmith shop, already completed. Timbers measuring 8 by 12 and 12 by 12 inches, brought by trucks from Stirling City, are being used in constructing the hearframe.

A 200-ton capacity Price screen mill, which scours the gravel off the cobbles and throws aside the stones, is to be installed in the headframe thirty-eight feet above the collar of the shaft. Mine cars are hoisted to a hight of sixty-two feet and there automatically self dumped, the gravel going into storage bins and the waste carried out to the dumps. The gravel will be washed in a 224-foot metal-lined flume, with riffles the entire length.

Six electric motors will be required to operate the equipment. The P. G. & E. Co. power line is being extended to the shaft site.

The shaft will be sunk vertically to a depth of 120 feet, although the drill holes show pay gravel to be bottomed on bedrock at 74 feet. Drifts will be driven through the bedrock, with raises into the auriferous gravel.

Gray estimates that by November, or three months from now, the mine will be on a production basis, and between 75 and 100 men will be employed on three shifts. In six weeks the headframe will be completed, a station cut, a drift tunnel driven into the pay gravel, and breasting of the gravel started.

LAKE OLYMPIA DANCING OPENS SATURDAY NIGHT

It is announced that dancing will be resumed at Olympia Park, beginning this Saturday night.

There will also be a 25c matinee dance from 2 to 5 in the afternoon. The Harmony Rascals will furnish the music.

CECIL COUGHLIN WEDS ALICE BERLE BENNETT

Last Sunday Miss Alice Berle Bennett of Sebastopol and Cecil Coughlin of Nevda City were united in marriage in Sebastopol by Father Joseph Kenney.

Miss Marian Pease of Sebastopol was bridesmaid and Scott Rundy of Nevada City acted as best man.

The church was prettily decorated with flowers of the season. Miss Lillian Yandle sang Ave Maria to an organ accompaniment.

The bride wore a costume of blue crepe with felt hat to match. She carried a shower boquet of lillies of the valley and baby roses. George Bennett and Leo Pease acted as ushers.

Mrs. Coughlin is the only daughter of J. C. Bennett a prominent fruit grower and nurseryman of Sebastopol district. She is a graduate of Ursuline college of Santa Rosa. The groom is the son of J. D. Coughlin of Nevada City, a graduate of the Nevada City high school and St. Mary's academy of Grass Valley. He is the official reporter for Judge J. B. Landis of Placer County Superior Court at Auburn.

A sumptuous wedding dinner was enjoyed after the ceremony.

Upon their return from a honeymoon they will establish a home in Auburn.

GEORGE COOK BURIED IN PINE GROVE CEMETERY

Funeral services were conducted Wednesday afternoon from Holmes Funeral Home for George Cook, who passed away Monday in Nevada City Interment took place in Pine Grove cemetery with Court Garfield, Firesters of America officiating.

He was a nemploye of the Murchie mine and had resided here about two years. Mr. Cook leaves a wife and children of this city. The funeral was a large one. Hague Thomas, Hegarty Post of the American Legion acted as escort as he was a Canadian veteran of the last war.

CANDIDATE ISSUES STATEMENT OF POLICY

Stating that in his opinion all legislative candidates should, before asking for the support of the people, set forth in a clear manner,, a statement of policy, which would act as a guide to the voters in considering a candidate's qualifications, Jesse M. Mayo, Calaveras county publisher and candidate for the Assembly, sixth district, this week issued a six page declaration of policy which he is distributing to many of the voters.

The platform or statement of policy makes no specific promises, but does state in a clear manner the legislative policy of the candidate on matters affecting the sixth assembly district and the state of California. Taxation, mining, agriculture, natural resources and highways are some of the subjects that are set forth in the statement along with a brief history of the candidate.

The most important and only way to reduce county taxes in the opinion of Mayo is for the legislature to return the power of expenditures to the respective counties. Mandatory legislation that compels counties to carry burdens that are unnecessary is one of the basis of high taxation according to the candidate.

JOHN SCHMIDT, NATIVE, WEDS HERE, RETURNS TO RESIDE

John J. Schmidt and Miss Lois Cunningham of Stockton were united in marriage Wednesday morning, the ceremony being performed by Judge Raglan Tuttle, at the Court House. The groom's mother, Mrs. Joseph Tredennick, and uncle, E. W. Schmidt acted as witnesses.

The bride has lived in Stockton for several years.

The groom is a native of Nevada City and son of the late John Schmidt. He has recently disposed of his business in Stockton and they will reside in a home he has bought on the highway at Town Talk.

The newly wedded couple is spending a honeymoon in the southern part of the state.

The street department of Nevada City is filling a number of breaks in the street paving over town and making a decided improvement.

Much Building Activity Is Under Way in This District

This season there has been more carpentering and painting done in Nevada City than there has been in many years.

Fully twenty five houses have received coats of paint, while in many homes rooms, whole interiors or even porches were painted. Among these houses are Miss Frieda Hieronimous, Mrs. Fero, Jack Grizzel, La Mar Fleming, a house recently purchased by Mrs. Phil Solaro, Joe Marquette, Miss Alice Langman's home, Mrs. Hays, New York Hotel, Mrs. Sullivan, Louie Sbaffi, the Cartoscelli house; and George Clutter.

Among the new homes being built this season are Miss Alice Murchie, house under construction; B. Toccalini, and George Clutter house, Joe Marquette, while Dominir Mezetta is having a two apartment house built just above the depot; two cottages at Rude's auto court; and the Cougnlin home is being remodeled. Besides these there are a number of new garages, new porches have been added to a number of homes, a room added or interiors have been changed over. Tony Rore is also building a new home in Nevada City.

Several pretty homes have been built between Nevada City and Grass Valley, among them being, Mr. and Mrs. Mason, Mr. and Mrs. E. O. Thompkins, Mr. and Mrs. P. C. Pupillo, besides an auto camp under construction for Thomas O'Reilly.

Paint, lumber and wages of carpenters and painters are lower than they have been in several years.

In Nevada City we have a new lumber company that is destined to be one of the leading business houses of our town, if it continues to grow as it has grown since its coming into our community a few months ago.

The same demand for homes is strong in Grass Valley. At one time this spring it was stated there were twenty eight homes under construction.

The Diamond Match company of Grass Valley is also selling quantities of lumber and paint in each town and outlying districts. This is a well established firm in Grass Valley.

A prominent business man of Grass Valley told a Nugget representative recently that there were fully 100 men working in the mines of Grass Valley that would like to rent houses in this section.

Nevada City has also been besieged by house seekers for some time. Almost every old house in Nevada City that could be repaired has been fixed up and rented.

At Hilis Flat a suburb of Grass Valley to the north east a sleepy little group of houses have changed until it is a thriving community with more voters in the precinct than any other than the county.

WHITMAN SYMMFS IS OPENING TWO MINES

Under the supervision of Whitman Symmes of San Francisco the Shamrock Gold Mining company is cleaning out the incline shaft connecting with the drain tunnel in the Diadem mine, near Forest. The work has progressed beyond the 60 foot point and there are 20 feet to go. Mining of a three foot ledge will then be started.

Mr. Symmes has lately obtained an option on the Young America mine near Sierra City, which is owned by F. M. Doak. While the Young America has produced considerably, it has been idle several years, except for the search for the ledge that once produced. Mr. Symmes plans to continue the search.

JOHN N. BECKER VISITS SISTER IN EAST GRIDLEY

John N. Becker, who has been visiting old time friends in Nevada City is spending a few days with his sister, Mrs. Frank Mooney of East Gridley. Mr. Becker is superintendent of a mine in Northern Rhodesia, South Africa. While here he gave several interesting talks on mining in that far away land.

MINING GROUND IS LEASED NEAR CAMPTONVILLE

A portion of the Martignone place in Oak Valley near Camptonville, has been leased by Mrs. Antoinetta Martignone to William Burns, Fred Fowler, Andrew Williams, and Albert J. Rowe for mining purposes.

The claim is located four miles north of Camptonville.

John Ghidotti, who has been employed in the mines of Chile ,South America for the past several years, returned to Nevada City Sunday evening. Merton Downey, who has been in the same place, also returned to California stopping over a couple of days in Los Angeles to visit relatives.

Mr. and Mrs. John Barker have rented the home of Mrs. Mary Rossen and moved in on Monday of this week. Mr. Barker has been in the employ of mines if South America for a number of years. Mrs. Barker was firmerly Miss Morgan of Nevada City. They have returned to make their home here.

James Pritchard 102 Years Old—

James Pritchard was 102 years old Sunday and was remembered with a large birthday cake and many hearty greetings at the county hospital where he is living. The cake was decorated with the years 1830-1932 and Mr. Pritchard made the first cut into the cake. He is rather feeble physically and hard of hearing but otherwise is in good health.

ROSTER OF TEACHERS FOR COMING TERM

The tentative roster of teachers for the Nevada county schools for the coming school year as given by Ella M. Auston, county superintendent of schools, is as follows:

Bear River—Miss Fern Rolph.

Birchville—Mrs. T .E. Pearce.

Blue Tent—Mrs. Lydia Gleason.

Boca—Mrs. Evelyn Bennetts.

Cherokee—Miss Laurel Thomson.

Chicago Park—Mrs. Clara A. Weeks.

Clear Creek—Miss Bernice Black.

Floriston—Miss Melba Luhrs.

Forest Spring—Mrs. Belle Corcoran.

French Corral—Miss Therese O'Connor.

Grass Valley—Mr. J. S. Hennessy, city superintendent; Miss Genevieve Kent ,Mr. A. R. Curneen, Miss Amanda Van Orden, Miss Annie Conlin, Miss Margaret Keleher, Miss Mattie Luther, Mrs. Alice Morateur, Miss Clara Carson, Miss Florence George, Miss Josephine Looney, Miss Elizabeth Garland, Miss Esther Hartung, Miss Agnes Curtis, Miss Helene Crase, Miss Dora Mitchell, Miss Una Pine, Miss Ethel Caddy, Mrs. Greba Wehe, Mrs. .Elsie Schwartz, Miss Alice Henwood, Mr. H. George, music; Miss Alice Dillinger, home economics.

Indian Flat—Mrs. Mabel Flindt.

Indian Springs—Miss Margarite Schwiezer.

Kentucky Flat—Mrs. Rose Beck.

Lime Kiln—Miss Lucille Thomson.

Markwell—Miss Gladys Thomson.

Nevada City—Mr. Walter A. Carlson, Mrs. Kate McCormack, Miss Ruth Tamblyn, Miss Kate Shearer, Miss Ruth Hogan, Mrs. Mamie Warnecke, Miss Savory Ford, Miss Gertrude Goyne, Mr. Leslie Sweeney, music.

North Bloomfield—Mrs. C. Church.

North San Juan—Miss Alice Baylis.

Oakland—Mr. O. B. Lake, Miss Alice Harry.

Overton—Mrs. Frances Davis.

Pleasant Valley—Miss Merle Vineyard.

Rough & Ready—Mrs. Margaret Wilson.

Spenceville — Mrs. Ruth Merryman.

Sweetland—Miss Ursula Reader.

Truckee—Mr. P. R. Nelson, prin., Miss Annette Faulkner, Miss Verah Shafsky.

Union Hill—

Washington—Miss Hazel Hagen.

Wolf—Mrs. Mary R. Sweet.

Health Supervisor, Miss Emily K. Davis.

High Schools—

Grass Valley—Mr. H. R. Speiss, principal; Mr. J. B. Underwood, Mr. Clarence A. Rush, Mr. D. D. Manross, Mr. G. T. Tennis, Mr. W. M. Wilson, Mr. H. George, music; Miss Dorothy Dyke, Miss D. Robertson, Miss Emma White, Miss Josephine Ochoa, Miss Alice Dillinger, Miss Ollie Hoffman, Miss Verna Greeley, Mr. Elmer Stevens.

Meadow Lake, Truckee—Mr. G. E. Hoffman, prin., Miss Anna Morgan, Miss Madge Clapp, Miss Hazel Jensen.

Nevada City—Mr. H. E. Kjorlie, principal; Mr. Beverly Barron, Mr. Leslie Sweeney, music; Miss Mabel Stephens, Miss Alice Carter, Mrs. E. Flewellen, Miss Esther Tremaine, Miss Harriet Fischer.

Grass Valley, Truckee and Forest Spring schools open August 22.

All other county schools will open August 29, excepting Chicago Park, Floriston, Lime Kiln, Pleasant Valley, Washington and Wolf, which open September 5.

DENNERLIN WORKING THE SKEHAN PLACERS

J. C. Dennerlin of Los Angeles has put a crew of nine men to work on the Skehan placers at Remington Hill, east of Nevada City about 14 miles. They road goes from Nevada City up the Tahoe Ukiah highway to Big Tunnel and on to Remington Hill.

They have established a camp and have a truck and machinery on the ground.

This property has been idle 40 years pending the settlement of the estate of the owner, who was killed in the mine in 1893. The ground lies on an unworked section of the Dutch Flat channel, covering three fourths of a mile of it, where property to both the north and south has yielded heavily.

Dunnerlin is vice-president of the Alemite company and the Stewart-Warner company. His secretary, F. A. Crampton, is secretary to the mining committee of the Los Angeles Chamber of Commerce.

To the west of this property several miles lies the famous Red Dog and You Bet diggings which produced millions of dollars in early hydraulic mining days.

OLD SHAFT OPENED IN TUOLUMNE COUNTY MINE

At the Defender claim of the Great Eastern group of mines they have been busily engaged in reopening an old eighty foot shaft. This property is located three miles south of Stent in Tuolumne county. A four foot body of good ore has been uncovered

Free gold in the vein is visible to the naked eye. A mill test of several tons of rock is to be made.

The property , owned by the M. McCormack company, is held under lease and bond by W. G. Keith, William Washburn, Ira Perkins and W. H. Hall.

V. F. W. WILL INSTITUTE POST HERE SATURDAY

Banner Mountain Post, Veterans of Foreign Wars, will be instituted at Nevada City Saurday evening.

There will be a big parade preceding the organiation meeting. The drum corps of a number of posts will be present accompanied by large delegations of members.

State Commander Darrel DeCoe of Sacramento and a corps of officers will be here and the new post starts out with a membership of twenty-eight.

W. M. Gracey, of the local forest service office, has been elected commander of the new post.

FRANK DAVIES, STAGE MAN FILES COMPLAINT

Frank Davies, operating the Citizens Auto Stage Company from Nevada City to Sierra county points, has filed his complaint with the state railroad commission asking an investigation and revocation of the operating rights of his competitor, the Alpha Hardware & Supply Company of this city.

In his complaint he states that the Alpha company proposes to reduce its service, for which it is now certificated by the commission, from a regular operations to "on call", without getting permission from the commission for the change.

He further alleges that the defendant has for several weeks wholly abandoned service between the towns of Nevada City, Alleghany and Forest City.

WEST MINES TO OPERATE ANCHO ERIE PROPERTY

Negotiations have just been concluded whereby West Mines Corporation will take over and operate the Ancho-Erie group of properties in the Graniteville section. The mines have been operating under lease to G. S. Barnhart and associates and West Mines has kept close check on the work in order to gain a true knowledge of the value of the ores blocked out. Th test run just completed produce a bar of 72 ounces valued at abo $1200.00 and together with oth data available this run sets a valu on the ore in sight in the mine in excess of $5.00 per ton. There is about 20,000 tons of ore available above the main tunnel and due to economical working conditions a good profit may be won from this grade of ore.

The Ancho and Erie properties both have heavy past production records but as yet are essentially undeveloped. A ten stamp mill is in operation and the mine is equipped with a complete mine plant. It will be the purpose of West Mines to carry on a winter of active development work in order to increase available ore reserves. As quickly as warranted, mill tonnage will be increased and it is felt that on a basis of 100 tons or more daily the mines will show splendid profits under present favorable cost conditions. The present mill will be run steadily and will show a profit on the actual operation of the mine. It will however be used principally as a test plant for new ore bodies that will be developed as the work progresses. Rearranging of mine equipment and improvements to the camp will be undertaken at an early date and the scale of mine operations will be increased as rapidly as possible.

A final checkup on the mine has just been made by Orlando McCraney, manager for West Mines Corporation. Mr. McCroney expresses himself as very well pleased with the outlook at the mine. He states that due to the fact that the mine is already equipped and in operation and has sufficient ore in sight to ultimately pay for the development campaign planned, it operation by West Mines lacks th usual risk in mine prospecting, bu still holds all the lure of a min development. He anticipates a ve successful outcome after a few months of further development.

SHIPPED GOLD BARS

Announcement was made that on August ninth a shipment of gold bars amounting to approximately $3,000 from the Sugarman mine, was shipped to the mint. This mine is a noted pocket producer situated two miles north of Sonora. For three weeks in succession the property's production amounted to $11,000, according to Ralph H. Butler, one of the operators..

Butler's associates are Robert Nelson and Harry Bowerman.

DOCTORS WILL SAVE ARM OF YOUNG FRANKLIN TUTTLE

Judge and Mrs. Raglan Tuttle motored to Sacramento this week with their son, who had his arm injured a short time ago in southern California. He is making a nice recovery from the injury but will be confined to his bed a couple of more weeks. Grave fears were felt for a time that there was danger of his losing the arm.

ORE IS BEING WORKED AT CONRAD-CENTENNIAL

At the Centennial-Conrad mining property of the Paramount Gold Mine Corporation, near Auburn, ore averaging about $50 per ton is gold is being worked. High grade shoots are also said to be exposed. M. J. Sullivan and other Reno people are interested in this company.

They recently placed a new 60-ton mill of the Chilean roller wheel type in commission. All equipment is electrically operated. Frank Channing, formerly connected with mines at Rawhide and other Nevada camps, is superintendent.

Promise of early work on the Tahoe-Ukiah highway comes as good news to the people of Nevada county.

Speaking before the Colusa Rotarians Tuesday afternoon Earl E. Kelly, chairman of the state highway commission said he was making application for state money to complete the east end of the highway. He said this work would cost approximately $500,000.

Kelly also stated that highway work generally in California is being increased and predicted a busy season with increased employment for many thousands of men.

Nevada county is particularly interested in the Tahoe-Ukiah highway which not only means a great increase of travel through this district but the employment of road building crews will mean payroll money distributed among local business men.

The increase in mining activity and the prospect of increased highway work are causes of optimism to the residents of this favored locality at a time when other less favored sections are wondering what the coming winter has in store for them.

CAMPTONVILLE NEWS

Camptonville, Aug 18—Mr. and Mrs. M. R. Carlson motored to Grass Valley Tuesday evening. Their youngest son received medical attention from an injury received when his elder brother accidentally hit him with a base ball bat.

Evan Thomas, Miss Bert Wilfred and Miss Lola M. Labadie left Thursday for Antioch for a few days visit.

Mr. and Mrs. Ted Young of Los Angeles, who spent a few weeks at the Twin Quartz mine, left for their home a few days ago..

Raymond Halkyard displayed five young coyotes a few days ago, but having them a few months too late to be able to realize anything for their scalps.

Miss Lesta Joubert, Mrs. L. Bishop and Acton M. Cleveland were among those celebrating a birthday this past week.

Jess Wilson arrived Monday from Sacramento and is superintending at the True Grit mine near here.

The home of Mr. and Mrs. A. Bonardi at Slate Range took fire Tuesday and was completely destroyed, a few personal effects being the only things saved. It is supposed that rats carried matches into the attic and these ignited. The community joins in extending sympathy to the family this being a continuation of misfortune, first by sickness and then unemployed and now fire.

James Joubert and John Lord killed a large rattlesnake carrying 14 rattles a few days ago in Celestial Valley.

Mr. and Mrs. R. Danneberg, F. Jackson, J. E. Pauly, Mrs. Fred Joubert and Mr. and Mrs. Earl Cleveland returned Wednesday from a two weeks trip to Lake Almanor.

Forest Supervisor R. L. P. Bigelow of Nevada City was in town Thursday on official business.

Mrs. Fred Butz, Miss Bert Wilford and Mrs. Acton M. Cleveland motored to Nevada City Friday.

John F. Lord motored to Sacramento Friday on a visit to relatives.

Mr. and Mrs. Earl Cleveland left Friday for their home in Sacramento after a few days visit here.

Clarence Hanson and wife motored to Nevada City Saturday.

Dr. Clyde Wayland of San Jose spent a few days this week at his mining property the Altaview mine.

Fred J. Joubert and Earle Pauly motored to Alleghany Thursday evening to attend a lodge meeting.

Marion Lusk and Dr. June Harris motored down from Downieville Friday euroute to Pike City.

Harry Deal motored to Browns Valley Sunday after a load of fruit.

Miss Alta Winstead of Alleghany was in town Sunday.

The trustees of the Camptonville school district announce a benefit dance for Saturday evening, August 27th, given in the Masonic Hall, proceeds for the benefit of the school district. Ed Melt of Auburn will furnish music; a big supper at midnight and usual admission fee will be charged.

Dr. A. H. Tickell of Nevada City was a professional visitor Saturday.

Mr. and Mrs. Tom Halkyard of Dobbins spent Sunday visiting relatives here.

Erle Pauly spent a week in Marysville.

SCIENTIFIC MOTOR EX-RAY
TUNE-UP $3.00

Including—
1 Adjust Ignition, check timing.
2 Clean and adjust contact points.
3 Check Valves for sticking or Burnt conditions.
4 Test Ignition Coil under compression.
5 Adjust Generator charging rate.
6 Test each individual Cylinder for compression and rings.
7 Clean motor and generator commutator.
8 Check all wiring for open and short circuits.
9 Clean and adjust spark plugs.
10 Check Carburetor.
11 Test Ammeter and Ignition Switch.
12 Fill Battery and clean terminal.

Youthful Strength

Dr. Magnus Hirschfeld, the world-known authority on Sexology and Director of the Institute for Sexual Science of Berlin, Germany, created

TITUS-PEARLS

to help the million of men and women who have lost or are losing their vital physical power. In his 25 years of practice and research, however, he realized that the weakening of man's glands was also responsible for other troubles: **High blood pressure, hardening of the arteries, physical exhaustion** after work or exercise, **dizziness, depression, neurasthenia, etc.**

All these troubles can be removed with **Titus-Pearls. Numerous** cases were treated by Dr. Hirschfeld in his Berlin Institute.

L. S. (State Official; 60 years old, married) complained of physical exhaustion, dizziness and tremors. Was easily tired. Mental powers dull and slow moving. Physical powers had been incomplete for previous 5 years. Blood pressure too high. Given 2 Titus-Pearls 3 times a day. 2 tweeks later the medical report on this man was: General health better, more vigor; dizziness much less and returning of power. Treatment continued and 2 weeks later L. S. reported again, this time to say that all wearinesse and exhaustion had gone; he felt fresh and buoyant. His blood pressure had fallen, and at 60 years of age he had regained the physical power and virility that he had known in the prime of life.

Start regaining your youthfulness now! To-day! In 2 weeks' time you will be aware of the new, virile force within you. Send $5.00 (cash registered or money-order) for 2 weeks' treatment.

To avoid mistakes please fill out the following coupon:
TEUTONIA IMPORT & EXPORT SERVICE CO., DPT. 1058,
211 Fourth Avenue, New York City, N .Y.

Gentlemen: Please forward to the following address.....Boxes

Titus-Pearls, for which I enclose $.....

My name is.....City.....

My address is.....State.....

FRENCH CORRAL

Well the summer is rapidly passing, with its variable weather of "too hot," rather chilly," and "just right."

Prospecting and long tom mining are going on as it has in the past months. While no one is getting rich, many are making enough to justify continuing the work.

Prospectors, mining men, candidates ,doctors, gospel teachers with new ideas, stockmen, agents, peddlers—people of all sorts—have been visitors in this section in the past three weeks. It would be impossible to learn the names of all.

Mr. and Mrs. Earl Chatty and children returned to their home in San Francisco last week. Mrs. Chaty and children spent the past two months at the home of her parents, Mr. and Mrs. J. W. Culver. Mr. Chatty spent his two weeks' vacation here with them. While here, they, with their parents, took a trip to our beautiful lakes and also had a trip to Lake Tahoe, Donner and visited Reno.

Theodore Wetzel, Jr., and wife and daughter were visitors recently.

Irwin Wetzel, who spent his summer vacation assisting his uncle, W. E. Moulton, and later enjoyed a camping trip in Garden Ravine with his friend, Lewis Rochholt, thinks he has had a real share of rural life. Both young men have returned to their homes in Oakland and will soon resume their college studies.

Mr. and Mrs. John Hernot and children are new-comers to French Corral. They are occupying the Barron home.

Mrs. L. Franciscowich of Marysville, and Mrs. Grace Olives were last weeks visitors and spent several days at their summer home here. Mr. Olives made a short visit while they were here. Business called him back to Ukiah.

Mr. and Mrs. W. E. Moulton and daughter, Miss Frances, and Mrs. Dudley made a trip to De Sabla last week. There they met other relatives and had sort of a family reunion at the home of Mrs. Moulton's sister, Mrs. James Fogarty, whose husband has been in charge of property at that place for the P. G. & E. many years.

The many friends of Mr. and Mrs. Cedric J. Bean of San Francisco are rejoicing with them over the arrival of the "stork" August 3, when a little son was left to them. "Ced" as Mr. Bean is familiarly called, is a Nevada county boy and spent all his early life on the San Juan ridge and in Nevada City. He is a member of the fire department in San Francisco.

While all Nevada county people regret the removal of the Grass Valley orphanage to Sacramento, we are pleased to know that our own Sister Mary Stanislaus has been named mother superior . This beloved and most lovable sister whose beautiful and useful life is well known to all of us, is a native of the San Juan ridge and her parents, the late Mr. and Mrs. Martin Maroney, were well known pioneers of Birchville, the little town where Sister M. Stanislaus was born and spent all her early life before entering St. Mary's academy. Her brothers, the late T. J. and Patrick Maroney, were well known mining men. Sister is the last member of her family and we trust she will be spared for many years to help foster the success of the new orphanage.

With deep regret we learned of the death of Mrs. Emily Stitch, at Paso Robles. She was a native of North Bloomfield and sister of O. W. Bean. She had a fall in which she broke her hip April 1st and never recovered from it.

MOJAVE MINE NEWS

Mojave, Aug. 18—George Holmes, well known prospector and mine leaser of California and Nevada, now leasing on the Good Hope claim of the Elephant group of mines, in the Mojave district, is the daddy of two sons, Austin, 16, and Jack, 13, who know ore so well that they confided to their good mother, that instead of taking a vacation or playing with their chums, that they lease one of the large waste dumps of the Elephant mine.

After proving to heir satisfaction that there was good values and that the same would pay to hand pick and mill. The little lads told it so well that the monther and George's sister, Carrie, 13, decared to cut in on the project.

Just nine weeks ago the assorting of the immense dump started, since then they have had four millings the first of 5 tons milled returned $78 to the ton; the second of 4 tons, milled at $63 per ton; the third milling of 4 tons was not so good, but milled at $40 the ton; the last or fourth now being milled will be better than $70 a ton. They have the start of another run; all of the recovery is sacked, the sacks being keenly examined for any wee holes.

The new waste dump created by their small hands in mucking will show that they have been on the job continuously from the first day.

They will carry on to school days, after which they will keep the lease going on holidays, Saturdays and Sundays.

Nearly one year after the Brite find on the Exposed Treasure was made, George Osborn, well known California-Nevada leaser, returned to the Mojave district, taking a chance on the old workings of the Elephant workings, went to work here and there, until he had figured out that with a lot of dead work, he could make good. Up to this time, no one had the heart to make a stay other than a prospector named Bowman, the latter taking in a partner, they soon and are now making good. Some 21 are now extracting good milling ore, nine of which are working on five leases controlled by George Osborn.

Osborn is an invaluable worker, taking a hand in and supervising the drilling of many drilled holes during the week around. Neither the time of prospecting the many old workings nor the expense that follows in putting a prospect in shape to carry on mining stops him. At the present time he is laying track, some 400 feet of new redwood ties and new rails, stulling over old stopes, bulkheads and chutes. In this development, he expects to cut a third vein that will carry values of $20 a ton.

In the long siege of prospecting of this lease on the Good Hope claim, he has exposed some 75 feet of virgin ground overhead, and the length of the chute is unkonwn.

A trio of well known desert leasers taking a lease on the south side of the Good Hope soon opened up a good showing of ore; a test mill run of twelve tons is to be made, should it return as good as $15 to the ton, they will make up for lost time.

The Mojave mining district, is well supplied with water from springs in the Tehachapi mountain range, and serviced by the Southern California Edison company.

A dollar pound ore is now being chlorided by its finder, T. L. Brite, leasing on the Golden Carrier claim of the Standard group of mines, in the Mojave mining district, four miles from Mojave town.

The rich streak is well defined and is from two inches to four inches in width, with a ten inch vein of ore that will mill better than $20 to the ton, running with it. Both the streak and vein are on the hanging wall side with good indications of improving.

The find was made on virgin ground alongside of the much traveled road that is and has been in use for the last 30 years. At the time of the visit Brite was extracting the last batch to fill a powder box full that will hold 25 pounds, the result of less than two hours early morning work.

Brite, is one practical all around miner, prospector, and leaser; coming into the district two years ago with the view of securing a lease on one of the idle properties. After many days of making a prospectors view of the old workings, he turned to giving the surface a lookover. Climbing the steep hill of the Exposed Treasure, he sat down for a rest, and like all old-timers started picking up rock, the right piece of quartz was there, further ground prospecting rewarded him. From this lease he made his firt clean-up of $7000. He has made a number of good millings from the underground workings of idle mines.

LEGAL NOTICE

SUMMONS

In the Superior Court of the State Of California, in and for the County of Nevada.

ALICE HARE, Plaintiff, vs., C. B. CONLIN, DANA WICKS, CHAS. L. SALMON, MARY E. SALMON, W. D. HILL, S. A. PARNALL, LAURETTE E. PARNALL, JOHN DOE, RICHARD ROE, MARY POE, and BLACK AND WHITE COMPANY, a corporation, and any and all other persons, associations or corporations claiming any right, title or interest in and to the lands described herein. Defendants.

Action Brought in the Superior Court of the State of California, in and for the County of Nevada, and the Complaint Filed in the Said County of Nevada, in the Office of the Clerk of Said Superior Court.

CHARLES L. GILMORE,
Attorney for Plaintiff.

The People of the State of California Send Greetings to:—
C. B. Conlin, Dana Wicks, Chas. L. Salmon, Mary E Salmon, W. D. Hill, S. A. Parnall, Laurette E. Parnall, John Doe, Richard Roe, Mary Poe, and Black and Whie Company, a corporation, and any and all other persons, associations or corporations claiming any right, title or interest in and to the lands described herein, Defendants.

YOU ARE HEREBY NOTIFIED, that an action was brought against you by the above named plaintiff in the Superior Court of the State of California, in and for the County of Nevada, by filing a complaint in the office of the Clerk of said Court on the 30th day of April, 1932, in which action Alice Hare is plaintiff, and you are defendants.

Said action is brought by the plaintiff against you as defendants to quiet her title to the properties described in the complaint and set forth herein, and,

YOU ARE HEREBY DIRECTED TO APPEAR and answer said complaint before this Court to show what right, title, estate, lien or interest you or any of you may have or claim in or to the property described in said complaint, and herein set forth, adverse to plaintiff's ownership, or any cloud upon plaintiff's title thereto, within ten days from the service of this summons, exclusive of the day of service, if served on you in said County of Nevada, and within thirty days, exclusive of the day of service, if served elsewhere; and you are further notified that unless you so appear and answer within the time above specified, that plaintiff will take judgement, forever quieting her title to the lands and premises herein described, or will apply to the Court for any other relief demanded in the complaint.

That said lands and premises are situate in the County of Nevada, State of California, and described as

The Northeast quarter (NE¼) of the Northwest quarter (NW¼ and the Northwest quarter (NW¼) of the Northeast quarter (NE¼) of Section thirty-six (36), Township eighteen (18) North, Range eight (8) East, Mount Diablo Meridian, and containing eighty (80) acres of land, according to the official United States survey thereof.

Given under my hand and the Seal of the Superior Court of the County of Nevada, State of California, this 30th day of April, 1932.
(SEAL)

R. N. McCORMACK, Clerk.

PERSONALS

William Hogarth came up from Stockton Wednesday and stopped overnight at the National Hotel. He was enroute to the Twin quartz mine in which he is interested.

Superintendent Rodda of the county hispital is on a vacation in the northwest. While he is away Mrs. O'Connor is in charge of the hospital.

Miss Gertrude Goyne, Miss Lucy Ward and Mrs. Farmer spent last week end at Lassen National Park.

Carroll Coughlan and Thomas Hogan returned to Oakland this week and will resume their studies at St. Mary's college.

GRASS VALLEY

JUDGE JOHN F PULLEN

Drafted as a candidate for presiding justice of the third district court of appeal because of his wide experience, particularly in water and mining litigation, Judge John F. Pullen will make an ideal judicial representative for Nevada county in the opinion of the committee sponsoring his campaign.

A native of Northern California and a resident of the district all of his life, Judge Pullen will be able to take to the appellate court a broad understanding of the problems of the district strengthened by years of experience as an attorney and judge of the Sacramento county superior court.

He is recognized as one of California's leading authorities on water rights, and inasmuch as the water problem is of vital importance it is pointed out that his knowledge and experience would be of utmost value in the highest court of this district. He was born in Roseville, Placer county, in 1882. He was educated in the public schools of that county, worked in its sawmills and stores, and by 1909 had received a degree in law from the University of California.

From that time until 1923 he developed a successful law practice, and his work was recognized by appointment to the Sacramento county superior bench. Since then he has been elected twice without opposition, and on numerous occasions has served as justice pro-tem in the third district court of appeal.

A leader in numerous charity and welfare activities, he has been elected president of Sacramento's community chest on two occasions, and early this year was chosen Sacramento's outstanding citizen of 1931.

Mrs. John William and daughter, Miss Ann, were recent visiotrs in Oakland with another daughter of Mrs. William, Miss Elma Williams.

James Manning of San Francisco is spending a few days visiting with Mr. and Mrs. James Dolan.

SISKIYOU COUNTY MINES

A survey is being made for the best route for the proposed tramway at the King Solomon mine, five miles from this place. Owing to the scarcity of water on Canyon Mountain, where the ore body is found, the new mill will probably be built near the bad of Mathews Creek and the ore trammed to it. The old mill was built on the mountain and insufficient battery water frequently hampered the work.

The Deadwood mining properties in Siskiyou county are proving themselves one of the best in the county at the present time. A large shipment made last week brought $19.07 per ounce. New openings are being made, and the mill is averaging 50 tons daily on ore running about $15. H. C. Baker is principal owner.

RED LEDGE MINE TAKEN OVER BY FRESNO PEOPLE

The Red Ledge mine a short distance from Washington, on the south canyon wall of the South Yuba river, is being reopened by a group of Fresno people under the name of the South Yuba Mining company. C. J. Horn is in charge as superintendent.

The Red Ledge mine rates as possibly the greatest producer of specimen ore of any mine in the Nevada county field. This yield was more than ten years ago when the property was being worked by the original owners Williamson brothers.

Williamson brothers and Clyde Cole, the latter still living at Washington, spent many long years developing this property. After the death of Foster Williamson a few years ago the beautiful exhibit of jewelry rock gold ore was sold to a man in the state of Nevada. A. A. Willoughby, late owner of The Nugget, tried through the columns of his paper to interest local people in buying this exhibit to preserve it for Nevada county.

The development consists of a series of tunnels penetrating the canyon wall, and the plans of the present company call for connecting the tunnels by extensions and upraises. A mill on the property is being operated on a limited scale at the present time.

YUBA RIVER COUNTRY

The town of Alleghany, distinctive because of its complete dependence upon the gold mining industry is built on the sides of the canyon that come up from Kanaka Creek. Everything is either up grade or down grade. The front of a house may be level with the ground—the back three floors below. Here R. P. Hawkins runs his general merchandise store, the post office, the telephone exchange, and such side lines as funerals, gasoline, mines and fisning. But an ex-sailor can handle any kind of a job.

The cooperative spirit of the people of Alleghany is common to all mountain communities and can best be evidenced by a recent occurrence. The ram pump which supplies water to the town, recently reached the point where it had to be replaced. A note to this effect was typed out stating $200 would be required to repair this damage and that those who wished to contribute should sign their names on the lower half of the sheet. Significantly a very small sheet of paper was used. The morning after this notice was posted on a post in the store, the entire $200 had been subscribed with $5.00 over. On the main street are rooming houses, restaurants, broading houses and clubs. Due to the preponderance of unattached men working in the mines the several clubs are well populated, for here refreshments are served and time can be hastened on its way by a card or pool game

Another unique feature of Alleghany is that where two streets join they invariably approach each other from different levels. Just below town is the world famous Original Sixteen-To-One mine. It, together with the old Sixteen-To-One mine above Washington, was named during the year that Bryan ran for President. When the Sixteen-To-One was incorporated "original" was added to prevent confusion. In 1896, Thos. J. Bradbury located the fabulously rich Sixteen-To-One ledge, 1500 feet down the canyon side from his home, which formerly belonged to his father, John T. Bradbury. The latter was Justice of the Peace, ran a livery stable, butcher shop, cattle business, small dairy, and also owned and operated the Spoohn Gold mine in the bottom of Kanaka creek canyon, between the Rainbow and Oriental mines. Year after year, following location of the vein, Thos. Bradbury lived in the old home and worked his mine on a small scale. In 1907, H. L. Johnson, discovered a vein on which his expenditure of $1200 netted him half a million in gold. Two years later, in 1909, he sold the Tightner mine for another half million. The Tightner Mine Company was then organized and the mine operated by A. D. Foote, the builder of Foote's Crossing road. As a result of this activity in the Tightner mine, interest was stimulated in the Sixteen-To-One and the present Original Sixteen-To-One Mine company was organized under the leadership of Harry U. Maxfield of San Francisco. During the 1916 litigation between the Sixteen-To-One and the Twenty-One company, adjoining them below, a raise on the Sixteen-To-One vein was made right through to the surface to determine on which property it lay, as the owner of the claim in which the apex lies has extra lateral rights to follow the vein to the end of its dip even though the dip runs under claims belonging to others. Bradbury was astounded when the apex was reached and a short raise made through the surface covering to find that the vein apexed right in his own back yard within 100 feet of the house where he had lived for a quarter of a century. The Sixteen-To-One and the Tightner were both found to have the same vein. The mine is now operated under the Superintendency of C. A. (Dick) Bennetts who (so rumor has it) gained the confidence of President Harry Maxfield, not because he was a graduate mining engineer—but in spite of it. One of the keenest executives on this coast, Mr. Maxfield is responsible for the continued high production of this property.

NEW YORK GOLD MINE CO

The New York Gold Mining company that has an executive office in Los Angeles and is capitalized at $100,000.00—400,000 shares, of a par value of 25 cents a share has a crew of men working. The outstanding stock amounts to $20,000.00.

This property is composed of the New York group of claims, consisting of approximately 143 acres. It is located near Greenville in Plumas county.

The company is working the ground on a long-term bond and lease, with payments for properties being made on a straight royalty basis.

The mine is completely and modernly equipped for mining, including new rod mill, concentrating tables and regrinding mill; all electrically operated. There is also a new assay plant just completed.

The mine is being operated through a 1700 foot tunnel. This main drift is being extended at the present time to open up additional ore values. The mill is being operated on a part-time basis on ore from one shoot. The ore at the present time is low-grade, ranging from $5.00 to $10.00 per ton. Mining will be carried right along and the property will be opened and operated in a minerlike manner.

Walter H. Parsons is in charge of operations at the mine.

The following are the officers and directors: Chas. E. Ferreira, president, Oakland; Chas. E. Trezona, vice-president, Leslie Hunt, secretary, H. R. Palmer, treasurer, Paul J. Saxer, director, all of Los Angeles.

TITLE TRANSFERS MADE OF ALTA HILL CLAIMS

The extensive properties of the Grass Valley Consolidated Mining Corporation, north of the Grass Valley townsite, known as the Alta Hill claims, were sold at sheriff sale recently to satisfy a judgment of $17,962 held by E. H. Armstrong, local attorney, who bid the amount of the judgment and was awarded the property subject to redemption for twelve months.

Armstrong immediately optioned the consolidated properties to C. E. Cutting, a mine operator of Grass Valley, for the amount of his claim. Cutting will attempt to interest capital in the development of the properties.

The sale was incidental to nearly ten years of litigation in which Armstrong participated as an attorney and his claim was based on attorney's fees and for money advanced.

KIRKPATRICK MINE IS TO BE DEVELOPED

The Kirkpatrick mine, near Goodyears Bar, and about 30 miles north of Nevada City, on which development was continued all last winter has been organized as the Kirkpatrick Gold Mines Company, with a capitalization of 1,000,000 shares of $1. par value.

This is one of about a half a dozen gravel properties near Goodyears Bar and gives promise of being a good producer when properly developed.

The directors are Charles G. Johnson of Sacramento, state treasurer; James D. Stewart of Auburn; O. N. Duffy of Napa; and F. F. and John Clark of Sacramento.

FIRST AID TREATMENT FOR RATTLESNAKE BITE

The common dread of all snakes and the fear of being bitten by a rattlesnake has spoiled many a happy vacation in the foothill and mountain regions of California, according to officers of the United States Forest Service. Rattlesnake bites are painful, they say, but only a small percentage are fatal—provided one knows what to do in the way of first aid treatment, or until the services of a physician can be secured.

Here are a few rules for emergency treatment of rattlesnake bites, given by entomologists and physicians who are authorities on the subject, which the forset rangers say are well worth remembering.

1. Keep cool. Don't run or get overheated.

2. Apply a tourniquet (rubber garter, rubber tubing or band, handkerchief, cord, shoestring) a few inches above the wound and between the wound and the heart. Bind the limb tight enough to hinder circulation in the veins, but not tight enough to shut off arterial flow. Loosen the tourniquet every 15 or 20 minutes for one to three minutes.

3. Open the fang punctures by cross-cuts 1|8 inch deep and ¼ inch or more long, made with a sharp sterile knife or safety razor blade. Do not slash indiscriminately or too deeply, especially on hand, foot, wrist, or ankle, as serious damage to tendons may result.

4. Suck the wound, by mouth if necessary, but be sure the mouth is free from wounds or abrasions. If suction bulb is available, apply mechanical suction for 20 minutes out of each hour.

.5 Ifanti-venomous serum is at hand, administer at once according to directions. This counteracts the venom which may have reached the blood stream.

6. Keep the patient quiet. In the case of weak heart action and fainting give stimulants such as strong black coffee, aromatic spirits of ammonia, or strychnine. Don't give whiskey or other alcoholic drink.

7. Don't depend on snake bite "cures" or home remedies sium permanganate is of no value as an antidote and may injure the tissues. Don't cauterize the site of the bite with strong acids or the like.

8. Get the patient to a physician as soon as possible.

DEVELOPMENT WORK AT AMERICAN FLAG

James Grimes, who is one of the principal owners of the American Flag mine, has had a crew of men at work cleaning out and retimbering the 1600 foot tunnel on the property. Some of the timbers were rotted where one ledge was very wet and some of the tunnel had caved, but at this time it is about all cleared up.

Some of the men are drifting east on a ledge that averages two and a half feet wide, while others are cross cutting on another ledge running north and east. This mine is situated in the neighborhood of the Alaska mine on Oregon creek which has a record of producing some rich ore.

Mr. Grimes always left his cabin in good order and was quite provoked to find that some one had crushed in the door and took bedding, cooking utensils, flour, beans, rice, shovels, picks, hammers, rake, mortar, canned goods, broom, meat saw, cooking utensils, even to a flap jack turner. The only thing left was the lid to a large new pot and Mr. Grimes says if they come while he is there he will give that to them also. They also broke the hasp on the door to the tunnel.

This is the second time the cabin has been robbed and it is very inconvenient when you travel out there in the mountains and find the place slick and clean and its too late to return to town without a lot of discomfort. This cabin like many others sets down on the side of a mountain and it is a steep climb back up the trail.

ANDREW BACHELS OPERATES FOUR HILLS MINE IN SIERRA CO.

Andrew Bachels of Johnsville is operating on good ore in the Four Hills mine in Sierra county.

Fifteen stamps are busily engaged daily crushing the good grade ore.

A crew of six men is employed at the present time.

PERSONAL MENTION

Mr. and Mrs. Charles L. Gilmore of Sacramento visited with Mrs. Elsie P. Willoughby Saturday. Both are lawyers, Mr. Gilmore being the lawyer for the Mining Association of California.

Ray Davis, who is with the Tahoe National Forest service, came down from Camptonville and spent last week end with his family in Nevada City.

Mrs. Leland Smith and children returned this week from a visit of several weeks with relatives in Alturas, Modoc county.

Mrs. LaMar Fleming and daughter returned a few days ago from a visit in Los Angeles. While there she attended the Olympic games.

Mr. and Mrs. R. E. Carr were business visitors in Sacramento recently.

Scott Rundy is spending a few days visiting in San Francisco.

Clarke Carter Returns Home—

Clarke Carter, son of Mr. and Mrs. Will Carter of Downieville has returned from completing his second year at the U. S. Naval academy at Annapolis. He is the nephew of Sheriff George R. Carter of Nevada City.

To Widen Grade—

Supervisor E. B. Dudley is preparing to winen the four mile grade from Washington to the Tahoe Ukiah highway. This narrow, steep grade has long been a dread to the timid motorist and is hard to traverse during winter weather.

Attorney and Mrs. J. C. Hurley and children of Ukiah spent a few days visiting with Mrs. Elsie Willoughby.

James Grimes, who is interested in the American Flag mine, north of Nevada City, was a Nugget visitor this week. He said there were many prospectors on Oregon Creek working the gravel in the streams for gold. Some seemed to be doing real well while others were not.

Mr. and Mrs. Eugene Englebright and children of San Rafael spent last week end visiting his brother, Congressman and Mrs. H. L. Englebright.

We regret that Mrs. Mary Rossen and daughter, Miss Mary Rossen, have decided to rent their home in Nevada City. Miss Rossen, who recently taught in our schools is now teaching in the Oakland schools.

Mrs. Henry Jacobs, Sr., who was recently operated on at Jones Memorial hospital in Grass Valley was brought home Saturday evening. She is making a rapid recovery.

The Nugget force were guests at a dinner Monday evening in honor of Mr. James Hurley's birthday. Mr. Hurley and family are visiting with Mrs. Elsie P. Willoughby.

Mr. and Mrs. W. N. Sim came down from Omega Monday. The Omega mine is being operated by Mr. Sim.

GOLD IS RETURNING TO THE UNITED STATES

Gold is coming to the United States after a long period of foreign withdrawals. The weekly statement of the Federal Reserve banks shows an increase of $27,000,000 in monetary gold for the week ending August 3rd.

The increase brings the nation's total gold holdings to $3,987,000,000.

MINING LAND RESTORED ALONG YUBA, AMERICAN

Prospectors drawn from the army of unemployed who are panning gold along the rivers in California's old bonanza fields were given a helping hand recently by the Federal Power commission.

The announcement was made of the restoration to numeral entry of 620 acres of placer lands in this belt and another 110 acres expected to be added this month. The commission made findings permitting gold operations to begin without delay with full protection of the future of the same idea for power development.

Areas affected are located on the Yuba, and American rivers, within the boundaries of power reservations.

LEE MAPLE MINE ON GREENHORN HAS BEEN SOLD

1800 pounds of ore from the mine of Lee Maple on Buckhorn, averaged $53.35 in a recent mill test, according to W. J. Patterson of Coulterville who made the test for Maple

Later the mine was sold by Maple to George Chapman and Tal Jones of San Francisco, with a part payment down and the balance in 18 months.

Four men are employed in road building and preparing for machinery which is to be installed at once. It is reported that a mill and compressor are already enroute to the mine.

This property is situated in Mariposa county.

ALPINE COUNTY MINE

The new mill at the Colossus gold property near Markleeville, Alpine county, has just been placed in commission, and arrangements are being made to open the Colorado section of the property under the old stopes on the 700-foot level. The great Dubois stope is officially stated to be filled with broken ore.

EL DORADO CO MINE

Mining of profitable gold ore from a massive vein in the Mormon Girl property, near Georgetown, El Dorado county, is proceeding steadily, according to advices reaching mining local mining men. The ore body is said to average around 100 feet in width, with broad shoots of $10 ore in evfdence. A 100-ton crushing plant was recently erected at the property. The mine has been comprehensively developed and has produced large quantities of gold.

Promising to revolutionize the mining of low grade ore, announcement is made for the firs ttime in history, of milling hard quartz under adverse conditions for 20 cents a ton or less. This is being done at the Beebe mine at Georgetown, by using a Hadsel mill and up-to-date syanidation.

Axe Injures Foot—

Pete Dellapiazza, who has been mining on the Celio property in the vicinity of Steep Hollow was severely injured Monday while cutting wood. His arm struck a limb and the axe slipped cutting off one toe, nearly severing the big toe and then ranged back into the foot. The Holmes ambulance with Dr. Tickell and W. B. Celio went to the camp and returned with Dellapiazza. He will recover with no serious results but will be at the Nevada City sanitarium for a time.

VEIN UNCOVERED AT THE LOST CABIN MINE

A. K. Wylie, Alturas attorney, and owner of the Lost Cabin mine near Canby, in Modoc county, after years of work believes he has discovered the lode in his mine by striking a solid body of ore fifteen feet wide.

The Lost Cabin mine which was formerly known as the Hess mine and located by T. C. Hess, Sr., one of the pioneer miners of California and Oregon who came west with the famous Dr. Whitman's party, has produced a large amount of gold during the past forty years, some of the ore output running as high as $90. per ton.

Mr. Wylie, the present owner, has installed modern machinery and an oil flotation plant and expects to treat from 30 to 40 tons of ore daily from the new body jjust discovered.

The vein of ore which was recently discovered was tapped by workers in the mine years ago but the drift where it connected with this particular vein was blocked by a charge of dynamite.

Years ago T. C. Hess made a fortune from this mine, although at times in recent years the mine has often just about paid operating expenses. Mr. Wylie, the present owner, expects to clean up several thousand dollars this season.

Bank an EXTRA dollar... and put *another* man to *work*!

Doesn't seem reasonable? It wouldn't be if it were not for banking institutions which assemble the dollars of the individual and loan them out to finance manufacturing, agriculture, construction and business in general.

Few individuals realize that the machinery of banking enables one dollar to do the work of five to ten dollars, through the extension of credit to business and industry.

Thus, the single EXTRA dollar you deposit each time you go to the bank becomes a mighty influence for the betterment of conditions in your community, your state and your nation.

If the 3,296,831 savings depositors in the state of California would bank an EXTRA dollar each week, or each month, unemployment in California would be non-existent.

Bank an EXTRA dollar in this bank—or any other bank—and put ANOTHER man to work. Do it REGULARLY—and KEEP him at work!
